

In the Land of Fire, a Shipwreck Story

September 22, 2004 By **BOB FRASSINETT**

I wrote an article for Wiki but one of my links has changed and needs to be updated:

<http://www.shipwreckworld.com/articles/in-the-land-of-fire-a-shipwreck-story>

<http://www.shipwreckworld.com/story/in-the-land-of-fire-a-shipwreck-story.aspx> is the current (and BAD) link!

Furthermore, and even more troubling, is that my two articles now link to one! One was for the MV Monte Cervantes, the container ship. The other was for SS Monte Cervantes, the cruise ship that sank in January 1930 with my mother aboard.

Also by mother:

[La psychologie de Julie dans La nouvelle Heloise de Jean-Jacques Rousseau](#)

by [Blackledge, Dorothy Forrant](#).
